FILED MAY 2 0 2025 Macoupin County Clerk

EFFICIENCY REPORT FOR THE CARLINVILLE PARK DISTRICT

APPROVED BY THE PARK DISTRICT'S COMMITTEE ON LOCAL GOVERNMENT EFFICIENCY ON 4/24/2025

I. Purpose

The Carlinville Park District ("Park District") formed its Committee on Local Government Efficiency on **4/24/2025**, to study efficiencies and report recommendations regarding those efficiencies and increased accountability pursuant to 50 ILCS 70/1, *et seq.* (the "Committee").

.

II. Committee Membership

The Committee consisted of the following individuals:

Justin Craig ~ President

Lori Hopping ~ Vice President

Jimmy Curry ~ Treasurer

Josh Manning ~ Commissioner

Regina "Regie" Byots ~ Executive Director, FOIA Officer, Secretary

III. Committee Meetings

The Committee met as follows:

| Meeting Date | Meeting Time and Place |
|--------------|--|
| 4/24/205 | Carlinville Park District Building at 11:30 a.m. |
| | |
| | |
| | |
| | |

Minutes of these meetings are available on the Park District's website or upon request at the Park District's administrative office.

IV.General Overview of Governing Statutes, Ordinances, Rules, Procedures, Powers, Jurisdiction

The Park District was established by a referendum initiated and approved by the voters of the Park District in 1976. All Illinois park districts, including the Park District, are governed by the Park District Code, 70 ILCS 1205/1 *et seq.*

Having a separate and distinct taxing body for parks, recreation, and conservation within the local community, which operates apart from general purpose governments, is extremely beneficial to the community for many reasons, as detailed further in this report.

- Elected, non-partisan, non-compensated board. The Park District is governed by a board of 5 commissioners. Commissioners must reside within the boundaries of the park district and are elected at the Consolidated Election in odd-numbered years. Pursuant to state law, commissioners are non-partisan and serve without compensation.
- Accessible and focused representation. Having a dedicated board to oversee these essential facilities, programs, and services provides the community with increased access to their elected representatives and allows those elected representatives to remain focused solely on those facilities, programs, and services. This is contrasted with general purpose governments where elected representatives are responsible for broad oversight on a wide range of issues. This special purpose benefit is particularly advantageous when it comes to budget and finance oversight.
- Increased transparency. Having a dedicated unit of local government to provide park and recreation services also improves the relationship between the park district and its residents because of the transparency and openness related to the board and park district operations. Having detailed agenda and action items allows taxpayers to be better informed about the inner workings of their local government. When individual units of government are responsible for providing specified services like park districts, transparency is increased because action items and budget procedures are more detailed. Additionally, these items and budgetary decisions are subject to more scrutiny by locally elected officials than is the case with larger, multipurpose governments with a multitude of departments.
- **Protection of revenues**. Because the Park District is a separate unit of local government, the revenues it generates can only be used for park district purposes. This assurance is contrasted with general purpose governments like cities, villages, and counties that provide a multitude of services such as fire, police, public works, economic development, etc., where revenues that are generated specifically for

parks and recreation can be expended on these other services with limited, if any, input from voters.

- **Protection of assets**. Public parks and other real property owned by the park district is held in trust for the residents of the park district, and, subject to very limited exceptions, can only be sold or transferred if residents approve of the sale or transfer by a referendum. This is contrasted with general purpose units of government, which have authority to sell or dispose of property by a vote of the governing board.
- **Providing the Community More with Less.** The Park District does more with much fewer funding options. Unlike other units of local government that receive direct state funding, and income, sales, use, hotel/motel, motor fuel and other numerous taxes, the Park District's only tax revenues come from a modest portion of a resident's overall property tax bill. In fact, despite its limited funding options, the Park District share is only 3.1% of the local tax bill.
 - Enhance the quality of life in Carlinville by becoming the leading provider of recreation and leisure opportunities
 - Provide safe, inviting and beautifully maintained parks and facilities
 - Create a customer-focused and responsive park system that prioritizes the needs of children and families

As part of good governance and implementing best practices in the management of day-to-day operations, the Park District has also adopted the following ordinances, rules, policies, and procedures:

- [Operations Manual]
- [Board Policies and Procedures Manual]
- [Administrative Policies and Procedures Manual]
- [General Conduct Ordinances]
- [Personnel Policies/Employee Manual or Handbook]
- [Safety and Risk Management Policies]
- [Strategic Plan]
- [Comprehensive Master Plan]
- [Annual Report]

V. List of Shared Services and Partnerships

The Park District works diligently to provide the best possible programs, services, and facilities to our community at the least possible cost. One of the many ways the Park District achieves this goal is by partnering with neighboring park districts, school districts, other units of local government within or near the community, the State, non-profit organizations, and for-profit corporations. Below is a comprehensive list of the current partnerships, agreements, and other relationships that assist the Park District's mission of delivering the best possible services at the least possible cost to our community.

1. Intergovernmental agreements with the City of Carlinville.

- City of Carlinville owns Loveless Park and Tower Grove Park. The Park District maintains both said parks. The Park District also manages all sporting events that take place at Loveless Park. The Park District receives no monies from the City and is responsible for all utilities, maintenance and any other expenses that may occur at both parks.
- 2. Partnerships with the Carlinville Community Unit School District #1
 - Carlinville Park District has a rental agreement with CCUSD1 which allows the Carlinville Park District to rent the Demuzio Sports Center in the off hours. The Park District pays a rental fee of \$20 per hour to the Carlinville School District to lease said property. This allows the Park District to coordinate indoor soccer programs that allow children from age 3 up to 18 years of age to participate. The Carlinville Basketball Boosters program utilizes the facility through the Park District.
- 3. Partnerships with the Carlinville Lions Club.
 - The Carlinville Lions Club has played a huge part in the Carlinville Park District. They have adopted Tom Thumb Park and they help make improvements to Tom Thumb on an annual basis.
- 4. Partnerships with local church organizations.
 - Charity Baptist Church has adopted Denby Park and they help maintain and make improvements to the park.
- 5. Partners with several local businesses.
 - We have several local businesses that sponsor sports teams throughout the year. There are also several that sponsor the City Pool by displaying a banner yearly.

VI. Other Examples of Efficient Operations

Use of volunteers. One way in which the Park District reduces the burden on taxpayers is through the use of volunteers. Last year, 40 plus individuals volunteered numberous hours of service to the Park District.

Youth employment. The Park District is a major employer of youth in the community. Last year, the Park District employed 43 youth. Not only is this an efficient way to deliver services, but youth employment serves as a valuable training tool for the future workforce.

Collaboration with other park districts on best practices. Because park districts are not in competition with one another, they are more willing than the private sector to share best practices. These best practices help to avoid unnecessary costs and deliver services more effectively and efficiently.

Reliance on Non-Tax Revenue. Unlike most local governments that rely on a wide range of sales, use, and income taxes, the Park District is not permitted to assess these types of taxes. Additionally, although the Park District is an economic engine for the community and generates much revenue for the state and our community in the form of hotel/motel, sales, and motor fuel taxes, our Park District does not receive any of these revenues. Also, unlike Illinois cities, villages, counties, and school districts that received billions of dollars in direct financial assistance from the Coronavirus Aid, Relief, and Economic Security (CARES) Act and the American Rescue Plan Act (ARPA), our Park District did not receive any such direct federal aid. Our Park District also does not receive state funding under the Local Government Distributive Fund (LGDF) or General State Aid (GSA) that these same cities, villages, counties, and school districts receive through the State budget.

Instead, the Park District provides all of the programs, facilities, and services to the community with a very modest amount of property taxes and from **non-tax sources** such as memberships, program registrations, and other user fees as well as private donations and grants.

VII. Transparency to the Community

The following information about the Park District may be obtained by citizens in the location listed.

| Document | Location(s) Available (website, administrative offices, county clerk, state website, etc.) |
|---|--|
| Annual tax levy | Directors Office/County Clerk |
| Annual budget and appropriation ordinance | Directors Office/County Clerk |
| Agenda and minutes | Website/Directors Office |
| Comptroller's annual finance report (AFR) | Directors Office/County Clerk |
| Annual audit | Directors Office/State Website |
| Statement of Receipts and Disbursements | Directors Office/County Clerk |
| Conduct Ordinances | Directors Office |
| Long range plans | Website Minutes |
| Strategic plans | Website Minutes |

The Park District offers residents many opportunities to provide feedback. These include:

- The board of commissioners meets once a month. Residents may provide public comment at every meeting.
- The Park District's annual Budget and Appropriation Ordinance is available in tentative form at least 30 days prior to its adoption at an open meeting of the Park District board. Additionally, at least one public hearing is held prior to final action, and notice of the hearing is published in the newspaper at least one week prior to the hearing.
- The Park District's annual property tax levy is approved at an open meeting of the Park District board in accordance with the Open Meetings Act. The Park District follows all public notice and hearing requirements under the Truth in Taxation Law prior to the adoption of this annual tax levy.

- Residents may contact or request information from the Park District by phone at 217-854-9231 or email at rbyots2124@gmail.com
- Carlinville Winning Communities
- Special Meetings: August 2024, February 2020, June 2018

VIII. District Awards and Recognition

The district's achievements have been recognized in numerous ways.

• IAPD & IPRA agency awards

IX. Benefits and Services

The Park District serves the entire community from the youngest child to the oldest adult and all ages in between. It does so in a variety of ways.

1. Facilities

The Park District offered the following facilities to the community last year:

Denby Park, Tom Thumb Park, Tower Grove Park, Gazda Park, Loveless Park, Demuzio Sports Center, Carlinville City Pool

2. Programs

The Park District offered the following programs last year. Registration numbers are also provided.

Recreational Baseball, Softball, T-Ball, Flag Football, Soccer, Swimming Facility, Indoor Soccer, Basketball.

3. Other Benefits

While the Park District is a special purpose district, its impact to the community is multifaceted and far reaching. For example, the Park District's parks, recreational programming, and other opportunities improve the community's overall physical and mental health and wellness, thereby reducing health care costs. Before and after school and summer programs offer safe, convenient, and affordable childcare options for working families during critical times when school is not in session. These opportunities also help reduce juvenile crime. The Park District's open space and trees help improve air and water quality and mitigate flooding.

•

X. Recommendations for Increased Accountability and Efficiency

1. Intergovernmental Fees and Charges

One opportunity for efficiency would be the elimination of fees and charges assessed by other units of government. By way of example, below are amounts that other units of local government charge the Park District even though the Park District's taxpayers are also taxpayers of these other units of local government. Such fees and charges, and the bureaucracy that accompanies them, inhibit the park district's ability to deliver programs, facilities, and services at the least possible cost.

Other units of local government should recognize that intergovernmental fees often lead to inefficiency in the expenditure of taxpayer dollars through extra bureaucracy and administrative costs. In many cases, the unit of government assessing the fee ultimately benefits from the project or event, meaning it can recoup its costs through the extra sales tax or other revenue that will be generated. Where such fees are absolutely necessary, general-purpose units of government should offset the fee by crediting the park district for all benefits they will receive from a project, event, or property. For example, open space that is protected and maintained by the Park District helps mitigate stormwater management costs, so assessing stormwater management fees on the Park District not only leads to inefficiency, but it is also shortsighted.

Governmental units should be discouraged or prohibited from charging more than their out-of-pocket costs associated with the activities covered by a fee that is assessed to another unit of local government with the same taxpayers. Put another way, one unit of local government should not profit by taxing another. Eliminating local permit fees is a way to reduce administrative costs without impacting overall public revenue. Local government best serves the people when it cooperates and works together. Some communities recognize this and do not charge fees to other units. All communities should be encouraged to follow that model to receive the best results for local taxpayers and to promote governmental efficiency.

2. Inefficiency of Other Governments

The Park District is also negatively impacted by the inefficiency of the state and other units of local government.

3. Unfunded Mandates

Unfunded state mandates are another cost driver. While the Park District recognizes that there are benefits to some of these mandates, modifications could help alleviate some of the burden to the park district.

a) Non-resident FOIA Requests. Last year, the park district spent zero dollars in staff time and legal fees to fulfill FOIA requests. Often the individuals/businesses submitting the FOIA requests are from outside of the park district boundaries, and they appear to be serving a specific agenda, rather than assuring better local government.

Under current law, resident taxpayers end up footing the bill for these nonresident or commercial requests. In order to help alleviate the burden for these non-resident requests the law could be amended to: (1) add a requirement that non-residents identify/explain the purpose of the request for information; (2) add a time limit on how far back a non-resident can request information; (3) staff time and costs could be included in the amount that is reimbursable for non-resident and commercial requests; (4) move back the deadline for non-resident requests 10 business days so that the park district does not have to delay services to its residents in order to comply with a non-resident request.

Sunshine laws are supposed to protect taxpayers by allowing them to shed light on any issue that is not exempt from FOIA. However, local government can be burdened by having to drop everything to rearrange priorities to meet FOIA deadlines, particularly if it has limited resources. Since local residents ultimately bear the expense of complying with FOIA, treating resident and non-resident requests differently would be justified.

b) Criminal Background Checks. All park districts are statutorily required to conduct criminal background checks on all employees pursuant to Section 8-23 of the Park District Code. The background checks must be done through the Illinois State Police (ISP). Last year, the park district spent \$0 for criminal background checks. The Park District does not recommend eliminating this mandate because it is necessary to ensure the safety and well-being of children and other park district patrons. However, the State should explore ways in which it could improve the current system and make it less costly for park districts to comply with the law.

The mandate also raises the fundamental question as to why one layer of government is forced to charge its taxpayers to comply with a State mandate when the State made the determination to impose the mandate. Put another way, if the State has determined that criminal background checks are necessary for public safety, the State should assist with compliance.

The Park District recommends studying whether there can be a more efficient background check process implemented through the ISP to reduce the time and expense it takes for background checks. Another suggestion is for ISP to waive the fee for checks on minors or waive all fees for name checks. If there is a "hit" from a name check, the fee could be charged for the more costly fingerprint check. Since it is a state mandate, perhaps the fee structure for park districts should also be reviewed to determine whether the fee being charged exceeds the actual cost of doing the check and, if so, perhaps the ISP could consider reducing its cost to local governments.

- c) Prevailing Wage. One way to reduce burden on local government staff is to limit the prevailing wage requirement to larger capital contracts. This would free up tracking of the paperwork on small repairs and projects. One reason for creating a threshold requirement is the cost of the administrative burden relative to the cost of the actual project. For example, eliminating prevailing wage on smaller projects, e.g., those less than \$50,000, will result in more local bids and decrease the overall cost for these smaller public works projects.
- d) Newspaper Publication. The newspaper is no longer the most effective way to provide notice. Websites are cheaper and reach more people. Permitting the park district to post the information on its website in lieu of newspaper publications would reduce costs.

4. Opportunities for Increased Transparency

As illustrated above, the Park District is very transparent in its operations. The following are opportunities for increased transparency:

XI.OTHER

The Carlinville Park District is crucial for community well-being, offering numerous benefits including health and wellness, environmental protection, and community cohesion. We provide spaces for recreation, physical activity, and connection with nature, positively impacting both physical and mental health. Additionally, our parks contribute to environmental sustainability by improving water quality, air quality, and protecting ecosystems.

Health and Wellness:

Our Parks offer opportunities for physical activity and exercise, which helps reduce the risk of chronic diseases and improves overall health. They also provide a natural environment that can reduce stress and anxiety, promoting mental wellbeing.

Environmental Benefits:

Our Parks help protect natural resources, improve air and water quality, and support biodiversity.

Community Engagement and Cohesion:

Our Parks provide spaces for people to connect, socialize, and participate in community events, fostering a sense of belonging and civic engagement.

Economic Benefits:

Our Parks can increase property values, attract tourism, and enhance the overall quality of life in our community, leading to a stronger economy.
